MODULE 01

Java Programming

From zero coding knowledge to professional Java development

LEARN A SKILL • BUILD PROOF • CREATE YOUR NEXT OPPORTUNITY

Java is not just a college subject. It is a foundation for software, backend and enterprise careers. Start from basics and progress toward Spring Boot and real applications.

WHO CAN JOIN?

Students, freshers, non-IT graduates, career switchers and anyone who wants a structured software-development path.

WHY STUDENTS CHOOSE THIS PATH

- Beginner-friendly learning path — start with the fundamentals and progress step by step.
- Practical, project-focused training — learn by building instead of only watching lectures.
- Career-oriented skills — connect every topic to real applications and workplace use.
- Portfolio advantage — finish with projects you can discuss in interviews.
- A new direction is possible — your previous degree does not have to decide your entire career.

MODULE CONTENT

Programming logic	Java fundamentals
OOP	Core Java
Collections	Exceptions
File handling	Multithreading
Lambda & Streams	JDBC
MySQL	Maven
Git/GitHub	REST APIs
Spring Boot	Spring MVC
JPA/Hibernate	Spring Security
JWT	

HANDS-ON PROJECTS

- Banking Management System
- Student/Employee Management System
- E-commerce Backend
- REST API

CAREER DIRECTIONS

Java Developer • Backend Developer • Spring Boot Developer • Software Developer

YOUR JOURNEY

Learn → Practice → Build → Create a portfolio → Prepare for interviews → Apply your skills in real-world situations.

Note: Training improves skills and employability; employment depends on individual preparation, portfolio quality, interviews and available opportunities.
