MODULE 12

Prompt Engineering

Learn to communicate with AI like a professional

LEARN A SKILL • BUILD PROOF • CREATE YOUR NEXT OPPORTUNITY

Turn vague prompts into reliable workflows, structured outputs and repeatable AI-assisted work — with or without coding.

WHO CAN JOIN?

Especially suitable for non-IT backgrounds, students, job seekers, government-job aspirants changing direction, professionals and entrepreneurs.

WHY STUDENTS CHOOSE THIS PATH

- Beginner-friendly learning path — start with the fundamentals and progress step by step.
- Practical, project-focused training — learn by building instead of only watching lectures.
- Career-oriented skills — connect every topic to real applications and workplace use.
- Portfolio advantage — finish with projects you can discuss in interviews.
- A new direction is possible — your previous degree does not have to decide your entire career.

MODULE CONTENT

Prompt fundamentals	Tokens/context
Instructions/constraints	Zero-shot
Few-shot	Role prompting
Persona prompting	Structured prompting
Decomposition	Critique/refinement
System prompts	Context engineering
Prompt templates	JSON outputs
Function calling	Tool calling
Prompt testing	Evaluation
Hallucination reduction	Grounding
Context management	Coding
Research	Education
Data analysis	Resume building
Business automation	Content generation

- AI Resume Builder
- AI Presentation Generator

CAREER DIRECTIONS

AI Productivity Specialist • AI-Assisted Professional • Prompt Designer • AI Automation Beginner

YOUR JOURNEY

Learn → Practice → Build → Create a portfolio → Prepare for interviews → Apply your skills in real-world situations.

Note: Training improves skills and employability; employment depends on individual preparation, portfolio quality, interviews and available opportunities.
